

INSTALLATION INSTRUCTIONS FOR WINAB GLASS FOLDING PARTITIONS

1. Make sure the floor track is installed horizontally ± 1 mm.
2. Mount the start jamb (connected with partition no 1) standing vertically on the floor track.
3. Mount and fasten the ceiling track's U-profile to the ceiling.
Make sure it is vertically positioned over the floor track.
Insert both silicon seals into the ceiling track's designated slots.
4. Mount partition 2 by introducing the hinges in each other and inserting the hinge nails.
In case when the top hinge nail can not be inserted from above,
bend the nail slightly, approx. 2 cm under the head, and push it in from the underside
5. Continue the mounting by repeating step 4 for the remaining partitions.
6. Pull and extend the folding partition to it's full length. Lock it into position with the espagnolettes.
7. Adjust the top track so that the track seals are aligned with and touches the top of all folding partitions. Figure 1.
8. Mount the end jamb vertically between the floor track and the top track and make necessary width adjustments. Figure 2.
9. Mount the handle according to the "HANDLE MOUNTING INSTRUCTION" on the reverse side.
10. Insert soft sealant between walls - jambs and ceiling - top track to ensure a tight mounting.

THANK YOU FOR CHOSING A WINAB FOLDING PARTITION

If you have any questions regarding the mounting please contact your reseller or Winab directly +46 8 560 211 00.
